✓ SUMMARY

- **PhD** in biological sciences awarded in May 2024.
- **Excellent publication record:** 40 refereed publications in top journals and 6 preprints, including 12 as the lead/senior author (e.g., *Nature* [IF = 50.5], *Trends in Ecology & Evolution* [IF = 17.3], *Ecology Letters* [IF = 7.9]).
- **Track record of research impact:** 2,071 citations (h-index: 21; i10-index: 25; Google Scholar). My publications cited 472% more than other contributions in the field (SciVal, field-weighted citation impact).
- **Large collaborative network:** Founded the Thermal Ecology Alliance (>1,800 members from 106 countries), and initiated collaborations across six continents.
- **Recognition of research excellence:** Received 4 research excellence awards (UNSW, international societies).
- **High level of interpersonal and communication skills:** Invited to speak at 7 national and international scientific meetings. Received 4 conference and department awards for best presentations and posters. Led five workshops.
- **Strong commitment to equity, diversity and inclusion:** Involved in leadership roles at universities and international societies. Published numerous studies to make research more open and inclusive.
- **Attracted competitive external funding:** Secured >1.6 million euros in competitive funding.
- **Experienced in teaching and supervision:** Taught nine units and supervised 15 students (2 MSc, 2 PhD).

🎓 RESEARCH & EDUCATION

July 2026 – present	Associate senior lecturer University of Gothenburg (Sweden) Project: Predicting the impacts of climate warming across fish life stages Principal investigator
June 2025 – present	Postdoctoral research fellow University of Gothenburg (Sweden) Project: Unifying thermal tolerance assessments across fish life stages Supervised by Fredrik Jutfelt
November 2024 – May 2025	Postdoctoral researcher Australian National University (Australia) Project: Quantifying the importance of phenotypic plasticity for population persistence Supervised by Daniel Noble
March 2024 – November 2024	Research assistant/Postdoctoral researcher University of New South Wales (Australia) Project: Using evidence synthesis to predict animal responses to environmental change Supervised by Shinichi Nakagawa & Malgorzata Lagisz
February 2020 – May 2024	PhD – Biological Sciences University of New South Wales (Australia) Thesis: Plasticity and resilience of ectotherms to climate change Supervised by Shinichi Nakagawa & Szymon Drobniak
October 2019 – December 2019	Research assistant University of Alabama (USA) Project: Carry-over impacts of endocrine disrupting chemicals on mangrove rivulus fish Supervised by Ryan Earley
September 2017 – June 2019	MSc – Evolutionary Ecology University of Tours (France) & University of Alabama (USA) Project: Early-life impacts of endocrine disrupting chemicals on mangrove rivulus fish Supervised by Ryan Earley
September 2014 – June 2017	BSc – Integrative and Evolutionary Biology University of Tours (France) Project: Aggressiveness and contest outcome in a parasitoid wasp, <i>Eupelmus vuilleti</i> 8 weeks internship supervised by Marlène Goubault & Anthony Mathiron

🖋️ PUBLICATIONS

I have authored **40 publications and 6 preprints**, including 12 as the lead/senior author and 11 as the second key contributor. My work has been consistently published in top journals in ecology and evolutionary biology (e.g., *Nature*, *Ecology Letters*, *Trends in Ecology & Evolution*) and has accumulated **2,071 citations** (h-index: 21; i10-index: 25; Google Scholar). My field-weighted citation impact indicates my publications are **cited 4.72 times more** than the average in my field.

Below, I present the **10 of my favourite publications**, in reverse chronological order.

10. **Pottier, P.**, Kellermann, V., Noble, D. W., Sgrò, C. M., Terblanche, J. S., & van Heerwaarden, B. (2026). Life cycle complexity drives variation in thermal tolerance and plasticity. *Current Opinion in Insect Science*, 101523.
9. **Pottier, P.**, Wu, N.C., Earhart, M.L., Lagisz, M., Alter, K., ... & Ruthsatz, K. (2026). Embryos are largely understudied in conservation physiology. *Conservation Physiology*, 14, coag006.
8. **Pottier, P.**, Kearney, M.R., Wu, N.C., Gunderson, A.R., Rej, J.E., ... & Nakagawa, S. (2025). Vulnerability of amphibians to global warming. *Nature*, 639, 954-961.
7. **Pottier, P.**, Noble, D.W., Seebacher, F., Wu, N.C., Lagisz, M., Schwanz, L., Drobniak, S.M., & Nakagawa, S. (2024). New horizons for comparative studies and meta-analyses. *Trends in Ecology & Evolution*, 39, 435-445.
6. Burke, S., **Pottier, P.**, Lagisz, M., Macartney, E.L., ... & Nakagawa, S. (2023). The impact of rising temperatures on the prevalence of coral diseases and its predictability: a global meta-analysis. *Ecology Letters*, 26, 1466-1481.
5. **Pottier, P.**, Lin, H.-Y., Oh, R.R.Y., Pollo, P., Rivera-Villanueva, A.N., Valdebenito, J.O., Yang, Y., Amano, T., Burke, S., Drobniak, S.M., & Nakagawa, S. (2022). A comprehensive database of amphibian heat tolerance. *Scientific Data*, 9, 1-15.
4. **Pottier, P.**, Burke, S., Zhang, R.Y., Noble, D.W.A., Schwanz, L.E., Drobniak, S.M., & Nakagawa, S. (2022). Developmental plasticity in thermal tolerance: Ontogenetic variation, persistence, and future directions. *Ecology Letters*, 25, 2245-2268.
3. **Pottier, P.**, Burke, S., Drobniak, S.M., & Nakagawa, S. (2022). Methodological inconsistencies define thermal bottlenecks in fish life cycle: a comment on Dahlke et al. 2020. *Evolutionary Ecology*, 36: 287-292.
2. Weaving, H., Terblanche, J. S., **Pottier, P.**, & English, S. (2022). Meta-analysis reveals weak but pervasive plasticity in insect thermal limits. *Nature Communications*, 13, 1-11.
1. **Pottier, P.**, Burke, S., Drobniak, S.M., Lagisz, M., & Nakagawa, S. (2021). Sexual (in)equality? A meta-analysis of sex differences in thermal acclimation capacity across ectotherms. *Functional Ecology*, 35, 2663-2678.

My complete list of publications is presented below.

PEER-REVIEWED

40. Tomás, M., **Pottier, P.**, Autiero, A., Tamarit-Castro, E., Berry, A.A., ... & Green, L. (2026). Limited capacity for rapid acclimation to marine heatwaves in coastal invertebrates. *Journal of Animal Ecology*. <https://doi.org/10.1111/1365-2656.70332>.
39. Chowdhury, S., Aich, U., Antão, L.H., Pinkert, S., Akite, P., ... **Pottier, P.**, et al. (2026). Extensive climate-induced range shifts in butterflies across the globe. *Nature Ecology & Evolution*, 1-14. <https://doi.org/10.1038/s41559-026-03117-y>.
38. Ellis-Soto, D., Noble, D. W., Arnold, P. A., **Pottier, P.**, Robey, A. J., Prokopenko, C., & Cohen, J. (2026). Extreme Heat as the New Normal: A Methodological Roadmap for Behavior, Physiology, and Species Distributions. *Integrative and Comparative Biology*, 66, icag045. <https://doi.org/10.1093/icb/icag045>.
37. **Pottier, P.**, Kellermann, V., Noble, D. W., Sgrò, C. M., Terblanche, J. S., & van Heerwaarden, B. (2026). Life cycle complexity drives variation in thermal tolerance and plasticity. *Current Opinion in Insect Science*, 101523. <https://doi.org/10.1016/j.cois.2026.101523>.
36. **Pottier, P.**, Wu, N.C., Earhart, M.L., Lagisz, M., Alter, K., ... & Ruthsatz, K. (2026). Embryos are largely understudied in conservation physiology. *Conservation Physiology*, 14, coag006. <https://doi.org/10.1093/conphys/coag006>.
35. Martinig, A.R., Burk, S.L.P., Drobniak, S.M.D., Perry, I., Morrison, K., Petersohn, M., **Pottier, P.**, ... & Lagisz, M. (2026) Dragon Kill Points: applying a transparent working template to relieve authorship stress. *BMC Biology*, 24, 48. <https://doi.org/10.1186/s12915-026-02521-x>
34. **Pottier, P.**, Oh, R.R.Y., Pollo, P., Rivera-Villanueva, A.N.R., Yang, Y., ... & Claunch, N. (2025). *AmphiTherm*: a comprehensive database of amphibian thermal tolerance and preference. *Scientific Data*, 12, 1987. <https://doi.org/10.1038/s41597-025-06286-w>.
33. Ricolfi, L., Yang, Y., **Pottier, P.**, Morrison, K., Williams, C., ... & Lagisz, M. (2025). Unravelling the magnitude and drivers of PFAS trophic magnification: a meta-analysis. *Nature Communications*, 16, 10720. <https://doi.org/10.1038/s41467-025-65746-4>.
32. Morrison, K., **Pottier, P.**, Pollo, P., Ricolfi, L., Williams, C., Yang, Y., ... & Nakagawa, S. (2025). MATES: A tool for appraising the completeness with which a meta-analysis has been reported. *Environmental International*. <https://doi.org/10.1016/j.envint.2025.109935>.

31. Pollo, P., Martinig, A.R., Mizuno, A., Morrison, K., **Pottier, P.**, ... Lagisz, M., & Nakagawa, S. Harnessing meta-analyses' insights in ecology and evolution research. *Royal Society Open Science*, 12, 250759. <https://doi.org/10.1098/rsos.250759>.
30. Macartney, E.L., Burke, S., **Pottier, P.**, Hamoudi, Z., ... & Nakagawa, S. (2025). Sex-specific effects of social environment on behaviour and their correlations in *Drosophila melanogaster*. *Ecology & Evolution*, 15, e71261. <https://doi.org/10.1002/ece3.71261>.
29. **Pottier, P.**, Kearney, M.R., Wu, N.C., Gunderson, A.R., Rej, J.E., ... & Nakagawa, S. (2025). Vulnerability of amphibians to global warming. *Nature*, 639, 954-961. <https://doi.org/10.1038/s41586-025-08665-0>.
28. Gould, E., Fraser, H.S., Parker, T.H., Nakagawa, S., ... **Pottier, P.**, et al. (2025). Same data, different analysts: variation in effect sizes due to analytical decisions in ecology and evolutionary biology. *BMC Biology*, 23, 1-36. <https://doi.org/10.1186/s12915-024-02101-x>.
27. Noble, D.W.A., Xirocostas, Z.A., Wu, N.C., Martinig, A.R., Almeida, R.A., ..., **Pottier, P.**, et al. (2025). The promise of community-driven preprints in ecology and evolution. *Proceedings of the Royal Society B: Biological Sciences*, 292, 20241487. <https://doi.org/10.1098/rspb.2024.1487>.
26. Lagisz, M., Bairos-Novak, K.R., Martinig, A.R., Bertram, M., ... **Pottier, P.**, et al. (2025). Priced out of belonging? Insufficient concessions on membership fees across international societies in ecology and evolution. *Proceedings of the Royal Society B: Biological Sciences*, 292, 20241430. <https://doi.org/10.1098/rspb.2024.1430>.
25. McKibbin, O., Vergés, A., **Pottier, P.**, & Mayer Pinto, M. (2024). Marine infrastructure support fewer producers and more filter feeders than natural habitats: a review and meta-analysis. *Environmental Research Letters*, 19, 113005. <https://doi.org/10.1088/1748-9326/ad7ee1>.
24. **Pottier, P.**, Lagisz, M., Burke, S., Drobniak, S.M., ... & Nakagawa, S. (2024). Title, abstract, and keywords: a practical guide to maximise the visibility and impact of academic papers. *Proceedings of the Royal Society B: Biological Sciences*, 29, 20241222. <https://doi.org/10.1098/rspb.2024.1222>.
23. Wu, N. C., Alton, L. A., Bovo, R. P., Carey, N., ..., **Pottier, P.**, et al. (2024). Reporting guidelines for terrestrial respirometry: Building openness, transparency of metabolic and evaporative water loss data. *Comparative Biochemistry and Physiology, Part A*, 296, 111688. <https://doi.org/10.1016/j.cbpa.2024.111688>.

PREPRINTS

6. **Pottier, P.**, Dougherty, L.R., Vasudeva, R., Berger, D., ..., & Fricke, C. (2026). Life history traits do not always evolve in response to changing environments. *EcoEvoRxiv*. <https://doi.org/10.32942/X20Q2M>. Under review at *Global Change Biology*.
5. Noble, D.W.A., Arnold, P.A., Nakagawa, S., & **Pottier, P.** (2026). A flexible modelling framework for estimating thermal tolerance and sensitivity. *bioRxiv*. <https://doi.org/10.64898/2026.07.16.738378>. Under review at *Ecology Letters*.
4. Drobniak, S. M., Macartney, E., Burke, S., **Pottier, P.**, Vendl, C., Hamoudi, Z., ... & Nakagawa, S. (2026). Heritabilities and genetic correlations of *Drosophila melanogaster* locomotory behaviour traits: a high-throughput phenotyping approach. *EcoEvoRxiv*. <https://doi.org/10.32942/X27H4G>. Under review at *Journal of Evolutionary Biology*.
3. Raynal, R.S., **Pottier, P.**, Nakagawa, S., & Schwanz, L.E. (2025). Natural developmental temperatures of ectotherms: A systematic map and comparative analysis. *EcoEvoRxiv*. <https://doi.org/10.32942/X2WS91>. Under revision at *Biological Reviews*.

2. Dadzie, F., Munoz-Rojas, M., Slavich, E., **Pottier, P.**, Zeng, K., & Moles, A. (2023). Native and commercial microbial inoculants show equal effects on plant growth in dryland ecosystems. **Authorea**. <http://doi.org/10.22541/au.167785097.78920686/v>. Under review in *Journal of Applied Ecology*.
1. Macartney, E.L., **Pottier, P.**, Burke, S., Drobniak, S.M., & Nakagawa, S. (2022). Quantifying between-individual variation using high-throughput phenotyping of behavioural traits in the fruit fly (*Drosophila melanogaster*). **EcoEvoRxiv**. <https://doi.org/10.32942/X22S39>

PRE-REGISTRATIONS AND REGISTERED REPORTS

I have been a leading advocate for open science in ecology, actively championing practices such as pre-registration and registered reports, which remain rare in the field. Completed projects are marked with an asterisk (*).

8. **Pottier, P.**, Claunch, N., Leibold, D.C., Laven, N., Morrison, K., ... & Noble, D. (2024). Sensitivity of ectotherms to changing developmental temperatures: a meta-analysis. **Open Science Framework Registries**. <https://doi.org/10.17605/OSF.IO/QCKPX>
7. de Oliveira Anderson, R., **Pottier, P.**, Chown, S. (2024). Thermal acclimation of polar ectotherms. **Open Science Framework Registries**. <https://doi.org/10.17605/OSF.IO/R3GYK>
6. **Pottier, P.**, Lagisz, M., Wu, N.C., Cowan, Z.-L., ... & Ruthsatz, K. (2024). Variation in research effort on different life stages in conservation physiology. **Open Science Framework Registries**. <https://doi.org/10.17605/OSF.IO/6XYZ8>

AWARDS & GRANTS

My research has received significant recognition, with **numerous awards**, including the largest prizes for early career researchers from leading scientific societies in my field, as well as from my university's department (Evolution & Ecology Research Centre, E&ERC). I have also demonstrated my ability to attract **competitive external funding**, including a Scientia PhD Scholarship, a Wenner-Gren postdoctoral fellowship, and a Strategic Recruitment grant from the Swedish Research Council. **Total:** 1,662,501 €.

2026	Strategic Recruitment of Associate Senior Lecturers. Vetenskapsrådet.	15,000,000 SEK
2026	Research grant. Helge Ax:son Johnson Foundation.	130,000 SEK
2026	Research grant. Längmanska Cultural Foundation.	30,000 SEK
2025-2027	Postdoctoral fellowship (tax-free). Wenner-Gren Stiftelserna.	720,000 SEK
2025	Conference symposium sponsorship. Loligo Systems.	3,000 GBP
2025	Conference symposium sponsorship. PyroScience.	1,000 GBP
2024	Outstanding Researcher award. UNSW, E&ERC.	250 AUD
2024	Young Scientist Award. Society for Experimental Biology.	400 GBP
2024	Travel grant. Society for Experimental Biology.	500 GBP
2024	Travel grant. International Society for Behavioral Ecology	1,200 USD
2023	Best student presentation award. Australasian Evolution Society	1,000 AUD
2023	Travel grant. Australasian Evolution Society.	200 AUD

2023	Scientific Meeting Grant. The Company of Biologists.	1,722 GBP
2023	Outstanding Postgraduate Researcher award. UNSW E&ERC.	500 AUD
2023	Skills Transfer workshop grant. UNSW E&ERC	600 AUD
2023	Workshop support grant. UNSW E&ERC.	1,900 AUD
2022	Early Career Researcher Excellence award. Australasian Evolution Society.	380 AUD
2022	Travel grant. Australian and New Zealand Society for Comparative Physiology & Biochemistry	420 AUD
2022	Irene Manton Best Poster award. Society for Experimental Biology.	100 GBP
2022	Travel grant. European Society for Evolutionary Biology.	350 EUR
2022	Travel grant. The Company of Biologists.	578 EUR
2022	Travel grant. Society for Experimental Biology.	300 GBP
2022	Travel grant. Australasian Evolution Society.	200 AUD
2022	Open Science in Practice award. Society for Open, Reliable, and Transparent Ecology and Evolutionary biology (PeerJ APC waiver).	1,195 USD
2021	Outstanding Presentation in Evolution and Ecology award. UNSW E&ERC.	150 AUD
2021	Twitter conference award. UNSW E&ERC.	100 AUD
2020-2024	Scientia PhD Scholarship. UNSW.	347,344 AUD

SELECTED PRESENTATIONS

I have disseminated my research findings through 18 talks and 4 poster presentations at a total of 18 scientific meetings (6 online). I have given both invited presentations and presented as a plenary speaker, and received 4 awards for best presentations and posters.

- 2026 **Invited speaker.** *Plasticity and resilience of ectotherms to climate change.* Seminar for the Bamfield Marine Sciences Centre. Bamfield, Canada.
- 2026 **Invited speaker.** *The Thermal Ecology Alliance.* Presentation for the workshop on “Temperature responses across disciplines and scales” (15 min). Bolin Centre for Climate Research. Stockholm, Sweden.
- 2024 **Invited speaker.** *How vulnerable are amphibians to global warming?* Society for Experimental Biology conference. Presentation for the Young Scientist Award Session (20 min). Prague, Czechia.
- 2023 **Plenary speaker.** *Plasticity and resilience of ectotherms to global warming.* Genetics, Ecology, Microbiology, Medicine, Zoology conference (60 min). Melbourne, Australia.
- 2022 **Plenary speaker.** *Developmental plasticity in thermal tolerance.* Australasian Evolution Society conference. Presentation for the Early Career Researcher Excellence award (30 min). Canberra, Australia.
- 2022 **Invited speaker.** *Developmental plasticity in thermal tolerance: Ontogenetic variation, persistence, and future directions.* Society for Experimental Biology conference (30 min). Montpellier, France
- 2022 **Invited speaker.** *Pre-registration: Why it is for you too!* Invited presentation at the Society for Open, Reliable, and Transparent Ecology and Evolutionary Biology conference (15 min). Online.

SELECTED WORKSHOPS AND PROFESSIONAL COURSES

Through my Scientia PhD Scholarship (\$10,000 AUD per annum for professional activities), I have participated in various professional courses to strengthen my transferable skills, including leadership, time and people management, and communication skills. I have also taken acquired additional funding to lead local workshops with other researchers, and organised workshops and conference symposia.

- 2026 **Workshop co-organiser.** *Vulnerability and Adaptations of Development Stages to Global Change Stressors.* International Congress of the Biology of Fish. Co-organised with Jérémy de Bonville and Zara Cowan. Vancouver, Canada.
- 2026 **Workshop co-organiser.** *Introduction to systematic reviews and meta-analyses.* Invited 1.5-day workshop by Lund University, Sweden. Co-organised with Daniel Noble. Lund, Sweden.
- 2026 **Teaching and supervision training modules** (PIL unit, University of Gothenburg): *Introduction to Teaching and Learning in Higher Education; Legal Module; Developing students' information literacy.*
- 2025 **Professional courses on animal experimentation.** *Swedish legislation & ethics, animal welfare and 3R; Laboratory Animal Science (Fish); Laboratory Animal Science (zebrafish).*
- 2025 **Session organiser.** *Vulnerability and adaptations of early-life stages to environmental stressors.* Society for Experimental Biology conference. Co-organised with Jérémy de Bonville and Zara Cowan. Antwerp, Belgium.

- 2023 **Workshop lead organiser.** Mapping the impacts of anthropogenic threats on biodiversity. Self-organised. Sydney, Australia
- 2023 **Session organiser.** Plasticity and resilience of developmental stages to climate change. Society for Experimental Biology conference. Co-organised with Katharina Ruthsatz. Edinburgh, UK.
- 2023 **Workshop lead organiser.** How to make your science more open? UNSW Skill Transfer workshop. Sydney, Australia.
- 2023 **Workshop lead organiser.** Geographical biases in global ecological syntheses. UNSW E&ERC. Smiths Lake, Australia.
- 2023 **Workshop lead organiser.** New horizons for comparative studies and meta-analyses. Self-organised. Stanwell Park, Australia.
- 2022 **Workshop co-organiser.** Introduction to Meta-analysis in Comparative Physiology. Society for Experimental Biology conference. Co-organised with Daniel Noble, Nicholas Wu, and Essie Rodgers. Montpellier, France.
- 2021 **Professional course.** People Management: Essentials (\$1,060 AUD). University of Sydney.
- 2021 **Professional course.** Time Management: Essentials (\$660 AUD). University of Sydney.
- 2021 **Professional course.** Interpersonal Skills and Effective Communication (\$496 AUD). University of Sydney.
- 2021 **Professional course.** Assertive Communication and Conversation Skills: Practical training (\$496 AUD). University of Sydney.
- 2021 **Professional course.** Leading an Organisation Through Dynamic Environments (\$1,694 AUD). Australian Graduate School of Management.
- 2021 **Professional course.** Leading for High Performance (\$3,850 AUD). Australian Graduate School of Management.
- 2020 **Professional course.** Developing Effective Negotiation and Influencing Skills. (\$1,925 AUD). Australian Graduate School of Management.
- 2020 **Professional course.** Leading through Influence (\$1,925 AUD). Australian Graduate School of Management.
- 2020 **Professional course.** Activating virtual presence (\$792 AUD). Australian Graduate School of Management.
- 2020 **Professional course.** Supporting students on the autism spectrum (\$700 AUD). Australian Graduate School of Management
- 2020 **Professional course.** The Authentic Communicator: Activating Presence (\$3,850 AUD). Australian Graduate School of Management.

OUTREACH & ACTS OF SERVICE

I have been involved in science communication through various media, targeting different audiences including the scientific community (Twitter/X), the general public (The Conversation, Pint of Science, radio, Twitch), and primary school students (Skype a Scientist). My research has also been featured in research highlights in different journals (Nat. Clim. Change, Nat. Ecol. Evol., Funct. Ecol., FrogLog). I have also taken different leadership positions, including serving in the board of directors of the Society for Open, Reliable, and Transparent Ecology and Evolutionary biology, advising the Equity, Diversity, and Inclusion committee at UNSW, and as the founder of the [Thermal Ecology Alliance](https://www.thermalecologyalliance.org/).

- 2025-2026 **Founder and lead coordinator.** Thermal Ecology Alliance. <https://www.thermalecologyalliance.org/>
- 2023-2026 **Board of directors.** Society for Open, Reliable, and Transparent Ecology and Evolutionary Biology.
- 2025 **Guest editor.** Special issue: "Ontogenetic variation in thermal biology: assessing life stage-specific adaptations and sensitivity in animals". Journal of Thermal Biology.
- 2025 **FrogLog.** Assessing amphibian vulnerability requires knowledge across all life stages. Report for the International Union for the Conservation of Nature (IUCN). In collaboration with Nicholas Wu and Katharina Ruthsatz.
- 2025 **Research Highlight.** Overheated amphibians. Nature Ecology & Evolution. <https://doi.org/10.1038/s41559-025-02706-7>
- 2025 **The Conversation.** Hot frogs and sizzling salamanders: climate change is pushing amphibians to their limits.
- 2022-2023 **Equity, Diversity, and Inclusion Committee.** UNSW Science.
- 2023 **Radio interview.** Why Open Science? Eastside radio FM, Boiling Point.
- 2022 **Awards Committee.** Society for Open, Reliable, and Transparent Ecology and Evolutionary Biology.

- 2022 **Equity, Diversity, and Inclusion Committee.** Society for Open, Reliable, and Transparent Ecology and Evolutionary Biology.
- 2022 **The Conversation.** Young cold-blooded animals are suffering the most as Earth heats up, research finds.
- 2022-2023 **Postgraduate Committee.** UNSW Evolution & Ecology Research Centre.
- 2022 **Skype a Scientist.** LadyGrove Park primary school, Didcot, UK.
- 2022 **Skype a Scientist.** ISS International School, Singapore.
- 2022 **Pint of Science.** Can animals cope with climate change? Sydney, Australia.
- 2021 **Research Highlight.** Sex, heat and phenotypic plasticity. Functional Ecology. [doi:10.1111/1365-2435.13959](https://doi.org/10.1111/1365-2435.13959)
- 2021 **Research Highlight.** A question of the sexes. Nature Climate Change. [doi:10.1038/s41558-021-01177-5](https://doi.org/10.1038/s41558-021-01177-5)
- 2020 **BatteryLow:** Playing video games for Science. Live stream on Twitch. Sydney, Australia.
- 2020-2026 **Peer review:** American Naturalist, Biological Conservation, Biological Reviews, Biology Letters, Biology Open, Conservation Physiology, Current Opinion in Insect Science, Ecology Letters, Global Change Biology, Integrative and Comparative Biology, Journal of Animal Ecology, Journal of Evolutionary Biology, Journal of Experimental Zoology Part A – Ecological and Integrative Zoology, Journal of Thermal Biology, Marine Environmental Research, Methods in Ecology and Evolution, Nature Ecology and Evolution, PeerJ.
- 2020-2026 **Social media:** Twitter/X (1,823 followers), BlueSky (1,960 followers).

TEACHING AND SUPERVISION

Although I have been mostly in 100% research positions, I have taught in nine undergraduate and graduate courses on diverse topics at the University of New South Wales and the University of Gothenburg.

- 2026 **Tutor.** MRNE 401, Ecological Data Synthesis. Bamfield Marine Sciences Centre.
- 2025 **Tutor.** BIO515, Research Skills in Biology. University of Gothenburg.
- 2023 **Tutor.** SCIF1131, Introductory Skills for Science. University of New South Wales.
- 2023 **Tutor.** SCIF1111, Perspectives in Medical Science, Scientific Literacy. University of New South Wales.
- 2023 **Demonstrator.** MFAC1501, Introduction to Microbiology. University of New South Wales.
- 2023 **Demonstrator.** BABS1201, Molecules, Cells and Genes. University of New South Wales.
- 2023 **Demonstrator, invigilator.** MSCI0501, The Marine Environment. University of New South Wales.
- 2022 **Demonstrator.** MFAC1527, Society & Health. University of New South Wales.
- 2022 **Demonstrator.** MFAC1522, Beginnings, Growth and Development B. University of New South Wales.
- 2022 **Demonstrator.** MFAC1521, Beginnings, Growth and Development B. University of New South Wales.
- 2022 **Tutor.** SCIF1131, Perspectives in Medical Science, Scientific Literacy. University of New South Wales

I have successfully co-supervised two MSc students at the University of Gothenburg (Joelle Zürcher, 2025-2026) and the Australian National University (Xinyi Liu, 2024-2025) as well as 12 undergraduate students at the University of Alabama (2018-2019). I am currently co-supervising two PhD students at the University of Gothenburg (Leon Pfeufer, 2025-present) and the Australian National University (Xinyi Liu, 2026-present).

- 2026-present **Co-supervisor** with Daniel Noble. Xinyi Liu (PhD student). Australian National University (Australia)
- 2025-present **Co-supervisor** with Fredrik Jutfelt. Leon Pfeufer (PhD student). University of Gothenburg (Sweden)
- 2025-2026 **Main supervisor.** Joelle Zürcher (MSc student). University of Gothenburg (Sweden)
- 2024-2025 **Co-supervisor** with Daniel Noble. Xinyi Liu (MSc student). Australian National University (Australia)
- 2018-2019 **Co-supervisor** with Ryan Earley. Hunter Watson, Sarah Nelson, Maegan Wharton, Charlotte Dolan, Dylan Hayes, Nicole Terfloth, Kyle Maas, Anna Lee Thornton, Conrad, Rebekah Dry, James Tickner, Shania Chambers (undergraduate students). University of Alabama (USA).

OTHER INFORMATION

Laboratory and field research	Freshwater and marine fish husbandry, insect sampling, breeding and husbandry, beach seining and baited traps, fish and invertebrate sampling, handling, and body measurements (size, mass), heat tolerance assays (CTmax, thermal-death-time), behavioural trials (movement, feeding, aggression), hormonal extraction and dosing (ELISA), (micro)dissections (brain, gonads), chemical dosing.
Analytical skills	Advanced statistical modelling, including hierarchical and multivariate models, phylogenetic comparative analyses, meta-analytic models, biophysical modelling, and climate modelling. High-performance computing, relational databases, data wrangling and management, data visualisation. Prompt engineering and AI use for coding.
Software	R, VS Code, Katana high-performance computer, ImageJ, Ethovision, Rayyan, Adobe Illustrator, Microsoft Office, Zotero.
